

Customer Journey Map

Date	30 September 2026
Team ID	[ENTER TEAM ID]
Project Name	ComicCraft - AI Comic Story Creator using Gemini Models
Maximum Marks	2 Marks

The map follows a user from having an idea to holding a finished comic, showing actions, touchpoints, thoughts, feelings, ownership and improvement opportunities.

Phase of Journey	1. Enter the idea	2. Generate the comic	3. Review & refine	4. Export & share
Actions <i>What does the customer do?</i>	- Opens ComicCraft - Types the story prompt - Names the hero, picks setting, tone, art style	- Clicks Create my comic - Waits while story and images are generated	- Reads each panel in order - Compares mood and art with expectations - Retries with another tone/style	- Clicks Download Your Comic as PDF - Reaches the success page - Saves, prints or shares the PDF
Touchpoint <i>What part of the service do they interact with?</i>	- index.html form - Dropdown menus	/generate route - Loading message	- comic_preview.html - Start over link	- Download button - export_success.html
Customer Thought <i>What is the customer thinking?</i>	"Is this simple enough?" "Will it understand my idea?"	"How long will this take?" "Will the images fit my story?"	"Nice, that is my character!" "Can I make it funnier?"	"I can share this right away." "I want to make another one."
Customer Feeling <i>What is the customer feeling?</i>	Curious and hopeful	Impatient but excited	Delighted / occasionally unsure	Proud and satisfied
Process Ownership <i>Who is in the lead on this?</i>	User (input); Frontend (validation)	Backend + Gemini Flash / Pro + Stable Diffusion	User (review); Frontend (display)	Backend (layout + FPDF export); User
Opportunities <i>How can we improve this stage?</i>	- Example prompts - Remember last choices	- Progress indicator per panel - Faster image model	- Regenerate single panel - Edit text in place	- Share link - Comic library / accounts
